

## **BULLET FREIGHT SYSTEMS, INC. Enters Its 7th Year as a SmartWay Transport Partner**

Industry: Shipping Services, Logistics, Carrier, Warehousing, 3PL

*Bullet Freight Systems, Inc. successfully completes its 2017 emissions reporting with SmartWay Transport Partnership. SmartWay's Partner tools are used to measure progress toward cleaner air and more sustainable business practices.*

### **FLORIDA, Doral February 5th, 2018**

Bullet Freight Systems, Inc. is a leading provider of transportation, logistics and supply chain solutions, they continue their commitment to track and report its carbon accounting practices for a seventh consecutive year. Freight transportation is one of the fastest growing impacts on the environment and as consumer demand increases, we are committed to respond with the most efficient and cleaner transportation practices.

Bullet Freight Systems, Inc. is a U.S. Environmental Protection Agency (EPA) SmartWay® Transport Partner. The EPA recently approved their annual submission of Partnership reporting requirements for the current year 2017. Bullet Freight Systems Inc. joined the SmartWay initiative in 2010 and each year performance data is submitted and reviewed to qualify as a SmartWay partner.

“We believe that anyone can make a difference in their environmental impact, whether it be a small or large enterprise, with proper education, exposure and diligence changes and improvements could be made to reduce carbon emissions,” says Kevin Dindial, President of Bullet Freight Systems, Inc.

SmartWay is a voluntary and cost-free program that supports companies' initiatives to reduce greenhouse gas emissions from freight supply chain transportation activities. Operational strategies, data management tools and verified technology supports are provided. The SmartWay Partnership is a domestic and international freight and supply chain program that manages data for over 3500 partners across all domestic shipping modes in the US and Canada. SmartWay implements its goals to lower freight carbon footprints by conducting analysis and research of freight impacts, engaging with freight experts, anticipating and responding to trends, developing strategic resources and

communication strategies, and serving as an international model. International collaborations exist with Mexico, China and other Asian nations, Europe, and Latin America.

“Bullet Freight Systems, Inc. knows that partnering with SmartWay is good for business, people and the

environment,” says Cheryl Bynum, U.S. EPA’s SmartWay Director, “By partnering with us, Bullet Freight Systems, Inc. is demonstrating their commitment to sustainability through cleaner, lower carbon goods movement.”
